

MY RESOURCES

WANT TO SEE MORE OF MY WORK?

Visit the links below and see what else I've done in the past!

Nebraska Insights Page

My first project at Metro Community College Code School, I created an insights page for Nebraska volleyball. Includes calling an external API to display stats data, creating and mapping an internal .json file and learning react.

My Personal Portfolio

Before I decided I wanted to go down the route of a developer, I have been a designer. I created an entire site using HTML/CSS/JS to showcase the different pieces of design work I've done in my professional career.
